DONATE

FUEL THE FORGE CAMPAIGN

Our funding gaps are real and urgent. In the next year, we need to raise \$125,000 to sustain our core programs and staffing to serve our community. Currently, we are 20% of the way to our goal — and with your help, we can close that gap. Every bit helps and we can't do it without you!

What will you create?

Sheridan's MEN'S SHED

MEN'S SHEDS

CONNECT-CONTRIBUTE-BELONG

What is a Men's Shed?
A PLACE AS UNIQUE AS YOU.
Men's Shed is an international phenomenon with thousands of clubs worldwide. We answer men's innate need for activity. Men's Shed is a club, mainly for older guys. We have tools, and materials for pursuing our interests and passions, for learning something new and sharing skills. We join to make stuff and tinker. We share a pot of coffee in a friendly atmosphere. In the end, we make friends and enjoy life.

Who Can Join? EVERYONE
No special skills are required.
You simply show up and participate at your own comfort level.

Reduce Isolation

Build Connection

Improve Well-being

Why Men's Sheds Matter
Men's Sheds provide a supportive environment where men connect "shoulder to shoulder" through shared activities, conversation, and community involvement. - rich.norval@gmail.com or 307-429-1164 for more information.

Introduction to the Metal Lathe

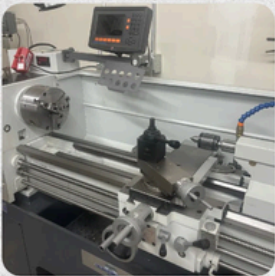

A metal lathe shapes metal by rotating a workpiece against a stationary cutting tool, enabling operations like turning, cutting, sanding, drilling, facing, threading, and knurling. It creates cylindrical or symmetrical objects by removing material and is versatile enough to produce parts for machinery, artistic pieces, and even components for other lathes.
